INTRODUCTION

Welcome, gorgeous manifestor! I am so, so happy you are here.

Since May 1, 2017, I have been sharing my Mastering the Art of Manifesting coaching and teachings with thousands globally and now I am so excited to share what has been so successful for myself and countless clients to date, with you, gorgeous soul.

I have put this book together as an easy to follow, 21-day guide. Each day I will share a simple but powerful manifesting tool or mindset insight with you. These teachings and techniques don't just work for me, they work for the hundreds of people that I have worked with since May 2017, and now, it is time to spread this incredible knowledge and to take it out to the millions worldwide, who desire to absorb it.

This book is intentionally set out to be easy to follow and simplistic in its nature. Manifesting and Law of Attraction loves simplicity and ease. None of what I teach is complex and, once you know it you can't unknow it and you will have this powerful knowledge for life.

Formerly from the London corporate world, I somehow always had an innate knowing that there was more to life. I always felt like I was on autopilot, caught up in the 9 to 5, 40-year plan and commuter treadmill, yet I felt resigned to this lifestyle and I couldn't see another way.

During this time of my London career, about ten years ago, I discovered the book *Ask and It Is Given*, which my beautiful sister gifted me, and as soon as I opened it I knew I had stumbled upon the missing jigsaw piece.

In May 2017, I threw caution to the wind and leapt into the arms of the Universe and decided to follow my one and only passion — I decided to become a Manifesting and Law of Attraction Coach.

Since that time I have lived and breathed the tools that I will share with you throughout this 21-day journey that we are about to embark upon together, and I have manifested SO much: my dream cottage (down to every detail including the blue front door!), my dream car, a multiple six-figure income, a place on the life-changing Abraham Hicks cruise, a luxury trip to the Maldives, business class flights and first-class flights and so, so much more.

But this isn't just about manifesting money and material things, this is about manifesting a sense of deep fulfilment, joy and passion that I now experience virtually daily — something I will

never take for granted. I am living the best version of me, and in the process, inspiring and helping thousands. I have found my passion and live and breathe my purpose.

Helping others too to follow their bliss, to unearth their passion and purpose and to also become limitless, is what sets my soul on fire.

When you work with the Law of Attraction, you are more powerful than one million people who don't leverage these universal laws. Currently less than 5% of the global population deliberately utilises Law of Attraction to design and create the lives of their dreams. I want to help lead the way in increasing this percentage and in widening the reach of this knowledge.

My vision is huge and the ripple effect that I am creating is already significant. I am helping thousands who are, in turn, helping more and more people. I am training people to do what I do and to coach this magic on, and I am helping my clients and following globally, to master and share these tools with their friends and loved ones.

If you surrender to the teachings within this book over the next 21 days you will feel happier, more at peace, and you'll notice the magic of the Universe manifesting your desires, every single day.

As you get to know me during our time together, you will learn that I am all about taking action — but this isn't action as you probably know it. This isn't a heavy, hard-work feeling type of action, this is an expansive and playful action that will set your soul on fire. It will make your heart sing and create eager excitement and anticipation within you.

DO YOU EVER JUST THINK IS THIS IT?

Shouldn't there be more to life?

Is there a hidden jigsaw piece that you're simply not seeing?

If this is you, then carry on reading.
